

Inclusive Technologies for Assistance in Reading and Writing

**Come learn about Learning Tools that help with Dyslexia,
hosted by Microsoft and Decoding Dyslexia Minnesota**

What you will learn:

-How the built in capabilities in Office 365 and Windows can enable learners of all abilities to improve reading and writing skills.

-How inclusivity designed Learning Tools add benefits for those with Dyslexia, Dysgraphia, ADHD, as well as non-native speakers and emerging readers.

-How learning tools are built into:

- Word
- One Note
- Outlook
- Office Lens
- Edge Browser

Bring With You:

-We would like this to be a learning and sharing event for the community. Your student/ child is encouraged to bring their favorite technology and invited to share what assistive technology works for them!

**Decoding Dyslexia MN doesn't endorse or support specific products. We encourage you to research available assistive technology options to determine what works best for your specific needs.*
